- The objectives of our Advocacy To prevent and lessen teenage pregnancy. It is to also educate not just teenage girls but also all people, as to why teenage pregnancy should not be tolerated. And lastly To prevent suicides and help them to follow the right path.

Introduction:

- Living in rural areas, not attending school, early marriage, and a lack of communication between parents and adolescents about sexual and reproductive health are all factors in teenage pregnancy.
- Inadequate sex education is one of the causes of teenage pregnancy (some girls do not know that having sex can result in pregnancy or fully consider the responsibility of having children).
- Teenage pregnancy, I believe, would be frowned upon by the church. Since, it is illegal to have sex with a minor. In addition, God will oppose teen pregnancy.

Rationale

- We want to reduce teen pregnancy as well as prevent it. This is the problem that my organization and I chose because it is our country's most serious issue. As a result of this issue, our government is suffering and we have decided to assist them by filling this petition. Our advocacy group also wants to teach teenagers with boyfriends or girlfriends a lesson about not trying or having sex, especially if not on their legal age. Sex is not the solution to your difficulties; instead, talk to each other and strengthen your bonds. We also want to teach parents who do not educate their children about sex or intercourse, that their irresponsible act can cause their children to make a grave mistake. This also aims to lessen poverty, in which happens in most cases with teenagers who came from a poor family. Finally, we want to encourage teenagers to continue their education even if they have a child so that they can pursue their aspirations.

Solutions

- If you experience teenage pregnancy like in the picture we make three solutions on it. First, is to avoid getting a partner on early age if possible because it can cause problems to your goals and dreams. Second, if you go in a date with your partner always bring protection like condoms incase there is an intimate action that triggers both of you and cannot be avoided, it is to also prevent teenage pregnancy. Lastly, teenage pregnancy is not a joke so always take it seriously.

Prayer and acknowledgements:

Dear Jesus,

Please forgive us for the sins we have committed and our lack of knowledge that led us to be ignorant in what we are doing most of the times. Please fill us with your spirit of love, and help us resist the temptation that always lurks around us. We thank you for the strength and courage you have shown us as we work to transform our world. Thank you for all the blessings you have given to us and may you guide us always.

Amen.
